## Exceptional power
> Advanced imageCHIP system architecture
> 80GB HDD; 2GB RAM standard

## Productive speeds
> Up to 30 ppm (C2030) and 20 ppm (C2020)
> Up to 44 ipm scanning at 300 dpi (BW/Color)

## Outstanding paper handling
> Up to 2,000-sheet maximum paper capacity
> 17 lb. Bond to 80 lb. Cover
> Plain, heavy, coated, envelopes

## Internal finishing
> 50-sheet corner or double-stapling
> Up to 750-sheet output capacity

## Enhanced collaboration
> Standard Universal Send
> Scan/print via USB
> Adobe® PostScript® 3™ and Adobe PDF formats
> Network Advanced Box Access[†]
> Easy fleet integration
> MEAP® enabled

## imageRUNNER ADVANCE Essentials
> imageRUNNER ADVANCE Desktop
> imageRUNNER ADVANCE Tracker
> Workflow Composer and Connectors[††]

## Strong environmental focus
> ENERGY STAR® qualified
> Reduction of $CO_2$ emissions in manufacturing process
> Exceeds EU RoHS Directive standards

* Not available in top cassette.
** If 1200 dpi print is selected, engine speed will slow down.

[†] Both models act as a client and can access the Advanced Box of another networked imageRUNNER ADVANCE system.
[††] Supports Sending capabilities.

# Communicate. Collaborate. Captivate.
# Smart business solutions.

## A welcome addition

Now workgroups, branch offices, and small businesses can enjoy the astonishing productivity and performance of the imageRUNNER ADVANCE Series. Incorporating a redefined platform, the Canon imageRUNNER ADVANCE C2030/C2020 models help you create spectacular work efficiently and effectively — all at a comfortable cost.

## Smaller and smarter

Inside a sleek design and compact footprint, these models really take advantage of Canon's next-generation technologies to bridge the paper and digital worlds. Create and finish professional-quality documents in vivid color and black and white. Easily perform tasks right from your PC. And streamline information exchange with colleagues by readily retrieving, editing, and sharing files through smooth integration with other networked imageRUNNER ADVANCE systems.

## User-centric from all viewpoints

Users will be delighted by the friendly interface and their ability to access functions with ease. IT administrators will applaud the new centralized device management solutions and vigorous security features. And business owners will value automated workflow options that boost productivity and help reduce costs.

## A reliable advantage

As part of a fleet or as stand-alone systems for small businesses, the imageRUNNER ADVANCE C2030/C2020 models deliver an impressive return on investment. Designed with maximum uptime and reliability in mind, these models keep your work moving efficiently day after day. Their range of innovative features will save you time and money without sacrificing quality.

## Even greener

Canon's commitment to protecting and sustaining the environment is stronger than ever. With the imageRUNNER ADVANCE Series, Canon has incorporated new green technologies that further conserve energy and resources, reduce $CO_2$ emissions and heat, and help prevent pollution.

## A truly advanced partner

Great partnerships deliver a strong competitive advantage. The imageRUNNER ADVANCE C2030/C2020 models offer cutting-edge tools and features that allow you to do better work more efficiently. This lets you focus on the powerful ideas that will advance your business now and in the future.
# You'll wonder how you did it all before.

## Beautifully engineered

The warm, natural color palette of the Canon imageRUNNER ADVANCE C2030/C2020 systems is a beautiful complement to any work environment. Designed to optimize space, these compact and lightweight models boast fully integrated features such as an optional internal finisher. With the intelligent functions and the cost savings these models offer, you'll experience smart improvements in your business.

## Power for exceptional performance

You can accomplish multiple tasks with the efficiency your work demands. These imageRUNNER ADVANCE models incorporate Canon's Advanced imageCHIP system architecture, which uses two processors to deliver outstanding performance and quality.

The image processor board works with the scanner, adjusts image size, and ensures superb image quality and fast processing. The information processor board controls the user interface and coordinates device networking and connectivity.

Advanced imageCHIP
system architecture

## Simple, friendly operation

Completely redesigned, the highly responsive, flexible user interface allows you to accomplish complicated tasks with ease. Because users have different tasks and work styles, the interface readily adapts to work the way you need to. And large, clearly identified onscreen buttons let you quickly access the functions you need.

**Size.** The 5.7" full-color, high-resolution TFT screen boasts wide viewing angles and exceptional clarity.

**Menus.** Two menus streamline your workflow. Just a stroke of the Main Menu keys gives you instant access to system functions. The Quick Menu powers productivity by allowing you to combine and access routine tasks at the touch of just one button.

**Customization.** Organize the onscreen buttons to fit the way you work by determining their number, size, and layout. And you can even select an onscreen background.

**Tutorial.** For users who have "how to" questions, these Canon imageRUNNER ADVANCE models have a tutorial button right on the screen. Quickly access clear, step-by-step instructions.

**Main Menu**
Customize the number, size, and layout of the function buttons, and select a background.

**Quick Menu**
Combine and access commonly performed tasks with just one button.

**Wallpaper**
Choose from a palette of background designs.

4

## Outstanding image quality

Make a big impression in vibrant color or striking black and white. Canon's innovative technologies make it easy to produce consistently accurate, high-quality images. With true 1200 x 1200 dpi* print resolution and oil-free pQ toner, text is sharp with smooth corners, and the rich, clear images display subtle gradient transitions and a high-quality finish.

## Up and running

With the imageRUNNER ADVANCE C2030/C2020 models, installation is a snap. You'll value the ongoing productivity these systems deliver. Stay prepared with status notifications. Maximize uptime with the ability to automatically move waiting jobs up in the queue if the correct paper for a job is unavailable.

Easily access and replace toner

## Essential solutions

Canon has raised the bar on productivity and cost control. Introducing imageRUNNER ADVANCE Essentials—specially created solutions that seamlessly connect the MFP to the user. Now, right from their PCs, users can perform document workflow tasks. Administrators can track and manage use and even influence behavior. And with amazing ease, the imageRUNNER ADVANCE C2030/C2020 models can quickly link to your external systems or existing network.

## Walk-up convenience

Designed to make your work easier, the Canon imageRUNNER ADVANCE C2030/C2020 models allow you to store to, or print from, a USB drive or other memory media such as an SD card or a CompactFlash card. To allow more comfortable data entry, an optional keyboard may be attached.

USB Memory Media                    Keyboard

*If 1200 dpi is selected, the engine speed will slow down.

# Work smarter, faster, easier. Productivity redefined.

## Accelerated performance

To keep pace, branch offices, workgroups, and small businesses demand the powerful performance and versatility that the Canon imageRUNNER ADVANCE C2030/C2020 models deliver.

**Warm-up Time.** A fast warm-up time ensures less time waiting to scan, print, copy, or send documents.

**Scanner.** The 50-sheet capacity, fast automatic duplex color scanner readily converts paper documents to color or black-and-white digital files.
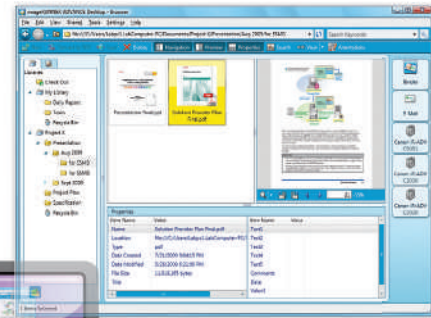

**Send.** Files breeze across the network with Universal Send and formats such as High Compression PDF/XPS, which significantly reduces color file sizes.

**Processing**. Scan, print, copy, fax, and send jobs smoothly with the latest system architecture.

**Finishing**. The space-saving internal finisher can corner or double-staple multipage documents.

## Highly productive solutions

There's no need to compromise functionality, either. With a wide range of software solutions, Canon gives your business the edge in lowering costs and improving quality. Multistep and frequently performed operations can be reduced to the touch of a button on the Quick Menu. Interface buttons can be named to match your business processes. And with Canon's MEAP® development platform, you can easily address specific business and workflow needs.

imageRUNNER ADVANCE Desktop

## Right from your PC

Whether from the imageRUNNER ADVANCE model or your own desk, you have direct access to the functions that help make your work easier. The imageRUNNER ADVANCE Desktop utility features a clear, comprehensive PC interface that transforms your computer into a central command station.

Now you can control personal document workflow by archiving, merging, and distributing from your desktop with "drag-and-drop" ease. You can find documents quickly, and even monitor the status of a job from any location on the network.
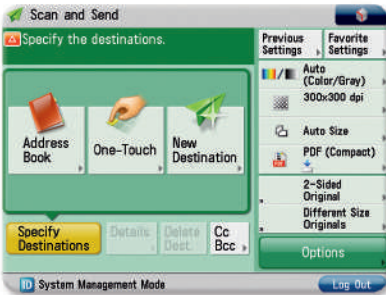

Document Feeder

Inner Finisher

Proximity Card Reader

## Scan, send, and collaborate

In today's collaborative world, small businesses, work-groups, and remote offices need to share and distribute documents effortlessly. The imageRUNNER ADVANCE C2030/C2020 models keep information flowing reliably.

**Universal Send.** In one process, you can scan color and black-and-white documents and immediately distribute them to multiple destinations, such as network folders and e-mail and fax addresses. And now, when you enter the initial letters of a destination, possible candidates from the address book are displayed, eliminating keystrokes to speed up your work.

Universal Send now offers an expanded range of file formats, including High Compression PDF/XPS, Adobe PDF Reader Extensions, Searchable PDF, and Encrypted PDF.

Universal Send Screen

**Fax.** These imageRUNNER ADVANCE models support up to two fax lines and have the ability to share the fax functions of another model on the same network. And with the Job Forwarding feature, incoming faxes can be automatically routed to other destinations such as an e-mail address or a shared folder on the network.

## Work better together

Designed to work seamlessly together, your networked fleet of imageRUNNER ADVANCE systems supports enhanced collaboration. When connected, the imageRUNNER ADVANCE C2030/C2020 models can store and access files in the Advanced Box folders of another imageRUNNER ADVANCE model, and users can also access remote address books.

## Versatile print solutions

Canon's proprietary UFR II print technology is standard with these models. Options including Adobe® PostScript® 3™ and PCL 5c/6 are also supported.

Effectively manage and control your print environment with Canon's Driver Configuration Tool. Easily set up drivers that allow selected users to print only in black and white. With the environment in mind, set parameters that limit users to duplex printing. Even enhance security by opting for a forced watermark.

# Extensive security options. Valuable management features. Powerful command.

## Robust security

The imageRUNNER ADVANCE C2030/C2020 models offer multilayered solutions that help businesses meet their goals of privacy and protection yet keep work flowing. From installation to retirement, this Series has solutions that help safeguard your confidential information and support security compliance.

**Access Management System.** Control access by user, group, or role. You can even limit access for a specific function, such as Universal Send.

**Adobe® LiveCycle® Rights Management ES Integration.** Protect access to documents at every stage. After documents are scanned, specify security policies and select authorized recipients.

**Trusted Platform Module.** Safeguard vulnerable settings, such as passwords, with a new security chip featuring tamper-resistant hardware.

**Data Encryption and Erase Options.** Disguise information before it's written to the hard drive, and permanently remove it by overwriting when the job is complete.

**Removable Hard Disk Drive.** With this option, the Hard Disk Drive can be removed and placed in a secure location when not in use.

## Centralized control

**Control individual models.** Remarkably intuitive, the Remote User Interface gives you centralized control right from your desktop. With this easy-to-use Web-based interface, you can access the information for any individual device. Check supply levels, monitor jobs, and stay completely informed.

**A fleet of systems.** Highly scalable, the imageWARE Enterprise Management Console offers one central point of control for all systems across your organization. This Web-based utility makes it easy to install and manage multiple Canon and third-party networked devices. Uptime is maximized by your ability to monitor jobs and supply levels—even receive e-mail notifications if toner is low or a tray is out of paper.

## Security Feature Overview

**Document Security**
• Document Scan Lock and Tracking*
• Adobe LiveCycle Rights Management ES2 Integration
• Encrypted Secured Print
• Watermark/Secure Watermark
• Copy Set Numbering
• Encrypted PDF
• Digital Signature PDF
• Fax Forwarding
• Fax Destination Confirmation

**Mail Server Security**
• POP Authentication before SMTP
• SMTP Authentication

**Network Security**
• IP/MAC Address Filtering
• SSL Encryption
• Network Application On/Off
• USB Port On/Off
• Destination Restriction
• IPSec
• IEEE 802.1x (Wire/Wireless)

**Data Security**
• Trusted Platform Module
• HDD Data Erase
• HDD Encryption
• Job Log Conceal
• Removable Hard Disk Drive

**Authentication**
• Department ID/Control Card Systems
• Device Level Log-in (SSO-H)
• Access Management System (AMS)
• Function Level Log-in via AMS
• Authorized Send
• Smart Card Authentication
• Advanced Authentication – Proximity Card*

HDD

**Logging/Auditing Security**
• imageWARE Secure Audit Manager

Note: Some features may be optional.

# Outstanding quality. Easy connectivity. True reliability. All the essentials for success.

## Standout performance

Just because your office is small in size doesn't mean you can't enjoy big results. The imageRUNNER ADVANCE C2030/C2020 models give you the edge with the ability to print high-quality documents, right in house. Proposals, reports, brochures, and contracts are a standout in brilliant color or stunning black and white. And with the ability to finish documents effortlessly, you'll stay ahead of the game.
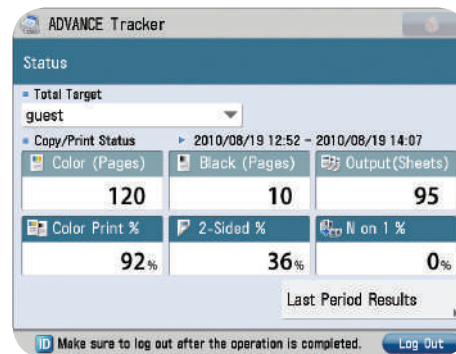

## Easy integration

You'll appreciate the seamless integration of these models into your network. Readily save or retrieve files from a networked PC or another imageRUNNER ADVANCE model. If a model is busy, scan or print documents from another on the network. With Remote Fax you can share the fax function of another imageRUNNER ADVANCE system, reducing the cost of maintaining multiple fax devices and lines. Improved connector and link support enhances communication with existing systems and integrates with those you acquire in the future.

## Lots of uptime

With the goal of virtually nonstop operation, these compact imageRUNNER ADVANCE C2030/C2020 models are big winners. Their new design and innovative technologies deliver outstanding reliability. Remote service monitoring, automated dispatching, and synchronized hard-drive backup maximize uptime. And with access to the latest technology and straightforward, clear upgrades, you can power through your jobs, giving you more time to devote to other business areas.
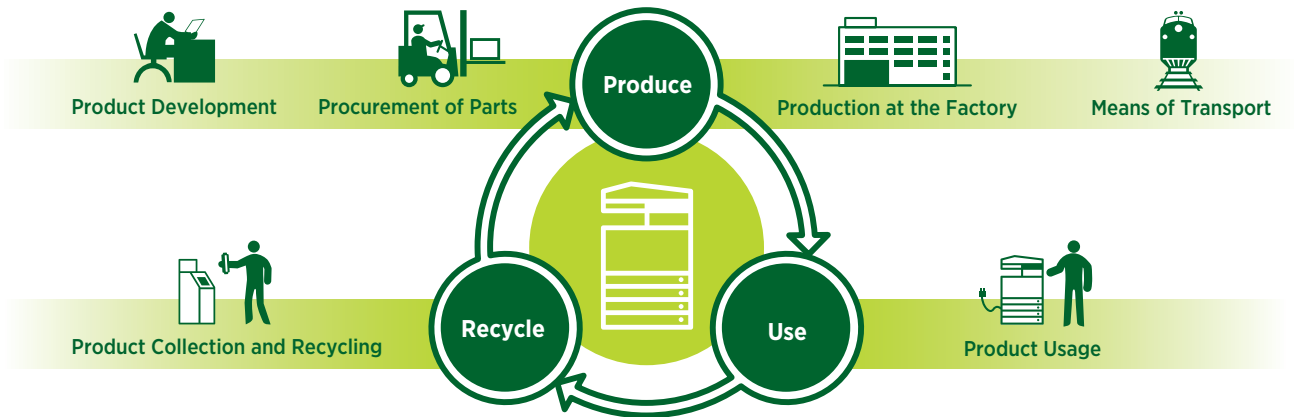

## A positive bottom line

Whether as stand-alone systems for a small business or part of a larger fleet, these models have the advanced features that boost productivity and deliver outstanding professional results—all at an affordable price. And you'll stay firmly in control of the bottom line with Canon's imageRUNNER ADVANCE Tracker* utility. Right from their desktops, administrators can manage all copy/print/scan/fax use. They can even add a message to the model's display screen, reminding users about double-sided or black-and-white printing. From every point of view, the imageRUNNER ADVANCE C2030/C2020 models make sense.

# Solutions that propel your business while reducing our environmental footprint—and yours.

Product Development | Procurement of Parts | **Produce** | Production at the Factory | Means of Transport

Product Collection and Recycling | **Recycle** | **Use** | Product Usage

## Reduction of $CO_2$ emissions

Through its Life Cycle Assessment (LCA) System, Canon has lowered $CO_2$ emissions by more than 30% over previous models by focusing on each stage of the product life cycle, including manufacturing, energy use, and logistics. These products are designed to be compact with less packaging, to make transportation more efficient.

## Eco-friendly design

Canon is making a difference through creative ecological thinking. The imageRUNNER ADVANCE models employ certain components fabricated with 100% recycled plastic from retired products. Canon's innovative green technologies also include bio-based plastic, a plant-derived compound that replaces certain petroleum-based plastic parts.

## A greener way to work

A visionary company, Canon knows that the world and the workplace need a greener workflow. The imageRUNNER ADVANCE Series delivers just that. Now organizations across the globe can seamlessly share and distribute digital documents. And because you can preview files prior to printing, changes can be made before committing toner to paper to avoid print errors. Administrators can even encourage duplex printing to help reduce waste and save paper throughout the enterprise.

## Greater energy efficiency

From the inside out, the imageRUNNER ADVANCE Series is designed for high energy efficiency and stellar performance. The combination of Canon's fusing technologies and new pQ toner helps reduce overall energy consumption by minimizing heat and power requirements. The Automatic Document Feeder captures superb-quality images at impressive speeds while using less energy than ever. Canon's RAPID Fusing Technology helps reduce power use. And when devices are in Sleep Mode, power consumption is 1W or less. With advanced technologies present in each model, the Series meets ENERGY STAR® standards.

## Reducing pollution

All suppliers are required to meet our stringent Green Procurement policy and environmental terms. This helps Canon exceed the toughest global standards set by the EU RoHS Directive, which requires the restriction of six specified hazardous substances. Canon currently restricts the use of 33 such substances.

# Advance your business with these optional accessories.

## Finishing Options

**Inner Finisher-C1 with optional Inner Finisher Additional Tray-A1**
• 750-sheet capacity*
• Corner and double stapling up to 50 sheets

## Output Options

**Inner 2-way Tray-F1**
• Upper tray: 250-sheet capacity
• Lower tray: 200-sheet capacity

**Copy Tray-J1**
• 100-sheet capacity
